STYLE E IS SHIPPED UNASSEMBLED

SHIPPING:

Please find the appropriate shipping charges for your order and zip code in the chart below. Please also see the order instructions section on page 2 of this order form:

ZIP CODES below 60000 (01000-59999)	ZIP CODES above 60000 (60000-99499)
\$9.35 per 100	\$11.50 per 100
\$36.35 per 500 *	\$44.50 per 500 *
\$48.35 per 1000 *	\$76.50 per 1000 *

PLEASE NOTE: We try very hard to keep our shipping charges as low as possible but we find it impossible to anticipate every combination or multiple of markers that a customer might order. The shipping charges listed here are for the most common orders.

*** If you plan to order more than 100 markers or if you wish to order just pens or replacement plates, please call us and we can figure the exact shipping for that particular order.**

WE CANNOT ACCEPT COLLECT CALLS, but we can usually save you enough to pay for the call and still have money left over. If you choose not to call for the exact shipping, we cannot adjust the order and you will need to include the stated shipping charges. Please also refer to Item #6 on page 2.

About EON Metal Garden Markers:

The handiest place to keep the name of a plant is right with it. EON Metal Garden Markers are made in a variety of sizes and styles to make this easier and more practical. As the name implies, EON markers are all metal, not plastic which can become brittle and break in cold weather or after a period of time in your gardens.

All sizes and styles of EON Metal Garden Markers are made of 13 gauge galvanized steel wires and .010 zinc labels for lasting durability. The zinc labels are specially treated for ease in writing on them and will weather to a soft pewter gray which can be desirably inconspicuous or painted or brightened for more visibility.

The materials used in EON Metal Garden Markers are extremely durable in most gardening environments. Those used in gardens with highly acidic or alkaline soils may find that the wires rust more easily than in soils with a neutral pH. The acid or alkaline can eat away at the galvanizing on the wires to expose the steel inner core. The zinc labels may oxidize with white crystals in areas with acid rain or air pollution. Heavy use of fertilizers and/or insecticides can also have an adverse effect on both wires and labels. Some customers with these problems have found it helpful to dip or spray the markers with an exterior polyurethane product after marking the labels to give additional protection.

Please see descriptions for each style of marker and label dimensions for that style.

Ordering Instructions and Suggestions

1. Be sure the order form you have is for the current year. Orders with outdated prices may be returned. Ads with current prices are placed in several issues every year of twelve national gardening magazines. You may also call us for current prices, but we cannot accept collect calls.
2. All orders are shipped by UPS so please give us an adequate street or road address. We cannot ship to post office box addresses, nor can we send orders by mail.
3. A check, money order, or valid credit card information must accompany each order.
4. Most orders with current prices and without errors are shipped the same day as we receive them. Please be aware that it can take five to seven days to reach us from anywhere in the United States. Please allow for weekends and holidays.
5. Due to the large number of orders we receive every day we must, out of necessity, put aside orders with errors or outdated prices until we can get back to them. This almost always results in a delay in shipping the order. We cannot bill you for balances due.
6. Shipping charges are listed on the order form. The quality of materials we use in our markers makes them very heavy to ship. Please note these shipping restrictions: up to 100 replacement labels or 6 pens (but not both) may be shipped with an order of markers with no additional shipping charges. For orders over 100 replacement plates shipped with an order of markers, add an additional \$1.00 per hundred plates you order. If you want to order replacement plates or pens only, without markers, please call us for shipping charges as the UPS base rate for small orders is very high.
7. If you are using a credit card for either mail or phone orders, we will figure the exact shipping for you. If you are sending a check with your order, please see the notes below the shipping chart on the order form.
8. Markers are shipped in multiples of 25, 100, 500 and 1000 only. The price for 50 markers is twice the price of 25, not half of the 100 price, etc. Styles and sizes may not be combined to get the necessary multiples.
9. We are required by law to collect sales tax on orders to Ohio residents. The tax is figured only on the merchandise ordered, not on the shipping charges, too. **New in 2005**, you must pay the **current tax rate** for your **zip code**. If you have questions, contact us and we will assist you.
10. Be sure to fill in the upper portion of the order form and do not rely on your check to give us your name and address. Please also make sure your check is signed, your addition is correct, and you have included the proper shipping for your zip code.
11. Please give us your telephone number. It will be used only if there is a question about your order. If you do not include your telephone number and there is a question about your order, shipping will be delayed while we write to you.
12. We have included our telephone number - (419) 533-4961 - for your convenience. If you have a question about EON markers, please feel free to call us between 7:00 a.m. and 4:00 p.m. Ohio time. Please, no Sunday calls or collect calls.
13. Please be advised that we do not give, sell, lease, rent, or otherwise distribute our customer list to any person, any business, or any organization.
14. When you receive your order, please check the invoice at once. If there is any reason to communicate with you, we will do so on that invoice. New order forms are included with every order shipped. Please also unpack your order carefully so that small items are not thrown away with the packing newspaper. All orders are packed carefully and are double checked before they are shipped, but we are human and once in a great while something gets missed. Errors must be reported to us within ten days of receiving the order to be corrected.
