Purchase Order #: _____

(For this order only, if required)

SHIPPING:

Please find the appropriate shipping charges for your order and zip code in the chart below. Please also see the order instructions section on page 2 of this order form:

ZIP CODES below 60000 (01000-59999)	ZIP CODES above 60000 (60000-99499)
\$9.35 per 100	\$11.50 per 100
\$36.35 per 500	\$44.50 per 500
\$48.35 per 1000	\$76.50 per 1000

PLEASE NOTE: We try very hard to keep our shipping charges as low as possible but we find it impossible to anticipate every combination or multiple of markers that a customer might order. The shipping charges listed here are for the most common orders.

*** If you plan to order more than 100 markers and/or if you wish to order just pens or replacement plates, please call us and we can figure the exact shipping for that particular order.**

WE CANNOT ACCEPT COLLECT CALLS, but we can usually save you enough to pay for the call and still have money left over. If you choose not to call for the exact shipping, we cannot adjust the order and you will need to include the stated shipping charges.

About EON Metal Garden Markers:

The handiest place to keep the name of a plant is right with it. EON Metal Garden Markers are made in a variety of sizes and styles to make this easier and more practical. As the name implies, EON markers are all metal, not plastic which can become brittle and break in cold weather or after a period of time in your gardens.

All sizes and styles of EON Metal Garden Markers are made of 13 gauge galvanized steel wires and .010 zinc labels for lasting durability. The zinc labels are specially treated for ease in writing on them and will weather to a soft pewter gray which can be desirably inconspicuous or painted or brightened for more visibility.

The materials used in EON Metal Garden Markers are extremely durable in most gardening environments. Those used in gardens with highly acidic or alkaline soils may find that the wires rust more easily than in soils with a neutral pH. The acid or alkaline can eat away at the galvanizing on the wires to expose the steel inner core. The zinc labels may oxidize with white crystals in areas with acid rain or air pollution. Heavy use of fertilizers and/or insecticides can also have an adverse effect on both wires and labels. Some customers with these problems have found it helpful to dip or spray the markers with an exterior polyurethane product after marking the labels to give additional protection.

Please see descriptions for each style of marker and label dimensions for that style on the other sheet of this brochure.

Wholesale Ordering Instructions and Suggestions

1. Every order form is printed with the year for which the prices are valid. Be sure this order form is for the current year. Orders with outdated prices may be returned, so if you have an old order form, call us to verify prices.
2. New brochures and price lists for the year are automatically mailed to current customers in January, so please watch for them. We are not responsible for misplaced or misdirected mail or that which may be lost enroute to your location. Currently prices subject to change effective the first of each year.
3. The wholesale prices are for the use of your business only. If you wish to refer customers to us, please give them just our name and address or telephone number so they can call or write for the retail brochure.
4. All orders are shipped by UPS which requires a street or road address. We cannot ship to post office boxes, nor can we mail orders.
5. Most orders of 500 markers or less, with current prices and without mathematical errors are shipped the same day as we receive them. The exception is Saturday when UPS does not pick up shipments. Orders of 500-2000 markers will be shipped the next business day. If you need over 2000 markers in one shipment, please call and we will give you an approximate shipping date. Allow extra time for orders of mixed styles and/or sizes. Please be aware that orders of over 3000 markers shipped at one time, except for the small D-10 swingers and minis, can be sent by UPS hundredweight, which is usually a considerable savings on shipping charges.
6. Every order is important to us. They are processed in the order in which they are received and we cannot put one order ahead of all others.
7. Due to the very large number of orders we receive every day, those with incorrect prices or mathematical errors in them must be set aside until we can get back to them or returned to the sender. This almost always results in a delay in shipping the order.
8. The wholesale prices listed on the order form are for 100, 500, 1000, 5000 and 10,000 markers of one style and length. Styles and/or lengths may not be combined to get the lower price. The wholesale prices are for merchandise shipped at one time to one location.
9. We require a credit application on file to open an account. Our terms for wholesale charges are net in thirty days and by placing an order with us, you also accept those terms. A 2% discount may be taken on the total of the merchandise (not on shipping charges) if the account is paid in full within 10 days of the invoice date. The same 2% discount is allowed if a check accompanies the order. We have strict policies in place for handling past due accounts.
10. For wholesale charge orders, a packing slip will accompany every order and the invoice will be mailed separately. If we have any reason to communicate with you, we will use the invoice to do so. Please read it carefully.
11. Please check your order as soon as it arrives. All orders are packed carefully and we make very few errors. However, we are human and can make mistakes. Any errors must be reported to us within 10 days of receiving your order.
12. If you have any questions or concerns, please call us at (419) 533-4961 Monday through Saturday, 8 a.m. to 8 p.m. Ohio time. No collect or Sunday calls, please. An answering machine will take your call if we are unavailable and we will return the call as soon as we can.
